

INSURANCE REQUIREMENTS

Unless agreed upon in advance, we will not release equipment or allow crew onto stage without a valid insurance cert! All certs are verified by calling the issuing insurance company, and a cert will not be considered valid until it has been checked.

Requirements for Equipment Rental:

- “Misc Rented Equipment” coverage of \$100,000 (unless value exceeds this amount)
- Pollution, LLC must be listed as "additionally insured and loss payee" (1539 S. Grande Vista Ave, Los Angeles CA 90023)
- Your Production Company should be listed as “insured” on the insurance cert.
- If a school or other production company is listed, they will need to provide us with signed letter of co-production.
- Security Deposit will be set at the deductible on the insurance coverage, unless another amount is agreed upon.
- Pollution may waive insurance coverage if the security deposit is equal to the replacement cost of the equipment.

Requirements for Stage Rental

- “General Liability” coverage of \$1,000,000
- “Third Party Property Damage” coverage of \$500,000
- “Misc Rented Equipment” coverage (see above)
- Pollution, LLC must be listed as "additionally insured and loss payee" (1539 s. Grande Vista Ave, Los Angeles CA 90023)
- Your Production Company should be listed as “insured” on the insurance cert.
- If a school or other production company is listed, they will need to provide us with signed letter of co-production.
- Security Deposit will be set at the deductible on the insurance coverage

COMMON ISSUES WITH INSURANCE CERTS:

- **The insurance cert arrives after business hours.** Most insurance companies are only open during bankers’ hours, so please leave enough time for us to check the cert.
- **The appropriate coverage is not listed on your insurance cert.** Please double check that your insurance cert lists Misc Rented Equipment (for equipment rentals) and Third Party Property Damage (for stage rentals). If you are renting both a stage and equipment, you will need to have both types of insurance coverage listed.
- **The cert is in the name of a different production company.** It is illegal for a 3rd party production company to “rent” you their insurance cert for your show. If another company comes on as “co-producers”, then you must file a co-production agreement with their insurance company and get their insurer to agree in writing to cover your production. Sometimes it takes a while for us to get this information from the insurance company, so please get co-production certs in as far in advance as possible.
